

Reyco Marine SooToday Interview Questions

For: Casey Davieaux (Owner) and Aaron Barbarie (Co-Owner / Service Manager)

Purpose: Quote material for SooToday.com sponsored business profile (UGC Q&A format) **Date prepared:** 2026-05-16

Please answer in your own voice. 1-3 sentences per question is enough.

Conversational tone. Your answers will appear as direct quotes alongside the questions in the published piece.

CASEY DAVIEAUX (Owner) — 7 questions

Q1. Reyco started in 2022 and has grown to carry 11 authorised brand lines in under 4 years. What was the vision when you opened the doors, and what's the part of the business you're proudest of building so far? **Q2.** What's the philosophy behind how Reyco's team approaches marine, small engine, lawn, snow, and powersport repair? What separates your shop from other dealers people might consider? **Q3.** Tell me about your team. Aaron, Lynn, Ron, Lee, Damian, and Cody. What should customers know about the people behind the counter and in the bays? **Q4.** Reyco carries Mercury, Princecraft, Echo, Cub Cadet, Toro, Minn Kota, Humminbird, Cannon, Hisun, and more. Why does carrying that range matter for Northern Ontario customers? How do you decide which brands belong on your floor? **Q5.** What does a customer walking into Reyco's parts counter or service bay get that they wouldn't get from a big-box store or chain dealer? **Q6.** What did you set out to accomplish with the new Reyco Marine website, and what do you want customers to take away the first time they visit it? **Q7.** Reyco is still building its presence in Sault Ste. Marie. How do you see the business serving the local community and the broader Algoma region as it grows in the coming years?

AARON BARBARIE (Co-Owner and Service Manager) — 2 questions

A1. You manage the service side day to day. What does a normal week look like at Reyco's service bays, and what's the most common job your techs handle in a

given month? **A2.** You've got Lee, Damian, and Cody working the bays across marine, small engine, lawn, snow, and ATV/UTV. How does the team handle that range? Is there cross-training across categories, or does each tech lead specific equipment classes?

How to send back

Just type your answers below each question and send back to Aiden. We'll fold them into the article as quotes. No formatting needed.
