HOW WE WORK

@GLV.MARKETING

Here's exactly how we work on your account. Step by step.

We don't bill by the hour and guess as we go. Every GLV client goes through the same structured process. Here's what that looks like and why it works.

Swipe to read →

We start by researching your market.

Before we write a word or build a page, we learn your competitive landscape, your target search terms, and where your customers are looking. That research drives every decision that follows.

Then we build the foundation.

Website, content plan, SEO structure, local presence. We put the pieces in place in the right order. A strong foundation is what makes the next steps compound instead of reset.

Then we execute. Consistently.

Content goes out on schedule. SEO work gets done weekly. Ads get monitored and adjusted on a regular cadence. Consistent execution is what separates marketing that compounds from marketing that coasts.

We review everything before it goes out.

Every deliverable goes through a review step before it reaches your audience. Strategy calls, content sign-offs, campaign reports. Nothing ships without a check.

The work stacks over time.

Month one builds the foundation. Month three, you start ranking. Month six, you're getting leads you didn't have before. This is what marketing looks like when it compounds instead of resets.

You get one team. One strategy. One direction.

We handle the research, the planning, the execution, and the reporting. One relationship, one standard, consistent across everything.

If your business needs marketing that compounds, message us.

We take a small number of clients at a time. If you want to know whether GLV is the right fit, start with a message.
